Sidewalk project to effect beachfront businesses

BY ELLIS CUEVAS
Mrs. Jerry Seuzeneau of the Little Mushroom was assured by Bay Councilman Jim Thriffley Tuesday that the City of Bay St. Louis will be directly responsible for the sidewalk relocation on Beach Boulevard between Main and deMontuzin Streets.

Thriffley said at an early evening recess meeting, "We are 100 percent responsible for the project, and we will work to keep open an access to your place of business."

Mrs. Seuzeneau said she is concerned over the time the construction is considered because Easter is the best season for her children's wear business.

Council member Harry Farve mentioned that Mrs. Seuzeneau's business wasn't the only one to be disrupted to some extent during the sidewalk moving, saying all the establishments in the area would be effected to some extent.

Thriffley added, "I am promising you that I will do everything in my power, because we want you to do a

Four escape

Poplarville jail

By WAYNE DUCOMB JR.
Hancock County Sheriff Ronnie Peterson set up a roadblock on Hwy. 53 at the Hancock-Pearl River County line Wednesday morning after the Pearl River County Sheriff's Department reported inmates had escaped from the county jail in Poplarville.

"Four white males escaped from the Poplarville jail at about 4 a.m. Wednesday and are described as armed and dangerous," Peterson said.

"The four men are Leroy White, Larry Ellis, Donald Gipsaw and Jerry Wheat," Peterson stated.

"We sent two units to the Hancock-Pearl River County line," Peterson added.

Aubrey Lumpkin, administrative assistant with the Poplarville office of the Pearl River County Sheriff's Department said Wednesday afternoon, "The four men sawed a lock in the jail and went out over a roof and down a pipe. The jailer discovered the men had escaped at 3:30 a.m. Wednesday which we feel was just a few minutes after they escaped."

"We are conducting a thorough search for the men and we were told they had a weapon," Lumpkin added.

Thriffley said he hoped all the easements would be completed and the project get started on Ash Wednesday, the day after Mardi Gras.

Council President Pete Benvenuti commented on how the City had authorized Mayor Larry Bennett to hire three additional workers for the sidewalk project last week.

The only thing needed is for the City Attorney Joseph Gex acquire the easements.

The City plans on doing all the labor

for the sidewalk relocation with assistance from James Chiniche, engineer who did the design and plans.

Reasons for the relocation of the sidewalk is to widen beach drive through the business district.

Council discussed the progress of the 1979 Small Cities Project which involves the 500 blocks of Main St. John and State Streets for sewer and water extensions.

Benvenuti reported that he had conversation with Ronnie Murray, administrator of the project, and he

Alcohol outlets warned

Crackdown imminent on sales to minors

BY ELLIS CUEVAS
Hancock County Sheriff Ronnie Peterson warned Monday his office will be cracking down on the sale of beer and alcoholic beverages to minors.

"Since I have been sworn in as sheriff, I have received numerous complaints about retailers selling beer to persons under 18 years of age," Peterson said.

"My office will also be checking on those 18 or over who purchase liquor and then pass it on to the minors—they will be charged with contributing to the delinquency of a minor," Peterson commented, adding, "the law will be strictly enforced."

Peterson added his deputies will also be checking the package stores for sales to those under 21, the bars, compact stores, supermarkets and any other business which sells any type of alcoholic beverages.

The sheriff reported the laws are strict about contributing to the delinquency of a minor, pointing out a person could be fined \$500 in addition to six months in the county jail if found guilty.

In order to enforce the liquor laws, Peterson added, "I will use whatever means it takes to prevent the sales or distribution of alcoholic beverages to minors."

Arson suspected in Waveland fire

By WAYNE DUCOMB
The Waveland Fire Department suspects arson in two fires which eventually destroyed a wood framed, lap sided residence at 314 Favre Street in Waveland, one late Sunday night and the other early Monday morning.

"There were no injuries to firemen and no occupants in the house at the time of the fire. The house belonged to someone from New Orleans and at the time was being rented to Grady and Cleo Willis," said Chief Kenneth Fayard of the Waveland Fire Department.

"We received a call at 9:10 p.m. Sunday from a resident on Necaise Street, about a block away, who reported an explosion at the Favre Street home," Fayard said.

Fayard reported his department along with a unit from the Bay St. Louis Fire Department responded to the first fire.

"The fire was confined to the back of the house, we completely extinguished the blaze, ventilated the house and made sure the fire was out," Fayard

explained.

"Then about 3:10 a.m. (six hours after the first fire) Monday we received a call from a lady who lived across the street who said smoke was coming from the house and could see a glow from a fire," Fayard said.

"When we arrived at the scene the second time the whole house was completely involved in flames so we concentrated on saving the two homes on each side by pumping water on them," Fayard commented.

"The flames from the fire reached 40 feet into the air and the fire was so hot that when we pumped water on the houses on each side of the blaze, steam came off of the houses," Fayard added.

"I couldn't believe the condition of the home when we responded the second time. While on the way to the fire an orange glow from the fire lit up the night sky," Fayard said.

"The fire is under investigation by the State Fire Marshal, the Waveland Fire Department and the County Fire Investigation Squad," said Ed Friloux of the County Investigation Squad.

Sheriff charges Wiggins suspect in 1972 death of Flat Top man

By WAYNE DUCOMB JR.
Benjamin R. Hart, 46, of Wiggins was arrested Sunday night in Poplarville by the Pearl River County Sheriff's Department and turned over to the Hancock County Sheriff's Department Monday morning on charges of manslaughter in connection with the 1972 death of Marion T. Hasselvander, 28, of Flat Top Community.

"Hasselvander was found lying dead on Hwy. 603 just north of the Bayou Lacroix bridge by a deer hunter from Pass Christian about 5 a.m. Nov. 18, 1972," said Hancock County Sheriff Ronnie Peterson.

"The hunter thought he had run over a 'duffle bag,' the sheriff added.

"At the time, Mississippi Highway Patrol Investigator Travis Lott, Sheriff Sylvan Ladner and myself began a two week investigation in which we concluded no foul play was involved," Peterson said.

"Then in December, 1979 a Poplarville man was apprehended by the St. Tammany Parish Sheriff's Office on burglary charges in Covington and he reportedly told them about an incident on Hwy. 603 where he was a passenger in a vehicle," Peterson stated.

"Ladner, Lott and I interviewed the man in Covington and he said he was riding in a car with two other subjects in 1972 when they allegedly picked up Hasselvander," Peterson said.

"We feel one of these two other subjects is Hart," Peterson added.

"We have determined that after they picked up Hasselvander, an incident in the car led to a fight, the car stopped and Hart got Hasselvander out of the car and assaulted him and left him laying on the side of Hwy. 603," the sheriff speculated.

"The three subjects in the car sped off and left Hasselvander semiconscious. He rolled over into the highway and a tractor trailer truck came along and hit the subject which led to his death," Peterson explained.

"We have another witness who verifies that is apparently what happened," Peterson added.

Diamondhead parades slated on land and water Saturday

Saturday is the big Mardi Gras day at Diamondhead with a unique parade of golf carts, floats, and boats.

Mardi Gras at Diamondhead has a flavor all its own—relaxed, friendly, with the unusual entries of golf carts and boats giving a distinctly different atmosphere.

Yet the beads, bands, and "throw me something, mister" of Mardi Gras make it a tradition.

The parade will begin at 1:30 p.m. Saturday at the Diamondhead Country Club, winding its way down Golf Club Drive to Diamondhead Drive East, circling the Sales Lodge and then southward to the Diamondhead Yacht Club, where the boats will join in from Cutoff Bayou.

King Ali'i Honua, Lord of the Land Luther Grice Jr. and his queen, Lee Peterson, will toast King Akua Kai, God of the Sea Harrie Devine and his queen, Ida Mae Snow, at the Yacht Club where a reception will follow.

Theme of the 1980 parade is "Roots of Diamondhead."

Parade Captain is Al Doussan and

looking for that driver," Peterson said.

Hart is in Hancock County jail under \$10,000 bond, charged with manslaughter and slated for a preliminary hearing before Justice Court Judge Bruce Necaise Feb. 27.

Honorary Grand Marshal is Capt. John McDonnell.

Trophies for winners in the parade will be awarded at 8 p.m. at Diamondhead Country Club, followed by the royal ball and meeting of the land and sea courts.

The public is invited to join the day's festivities and to view the parade.

The Krewe of Kids

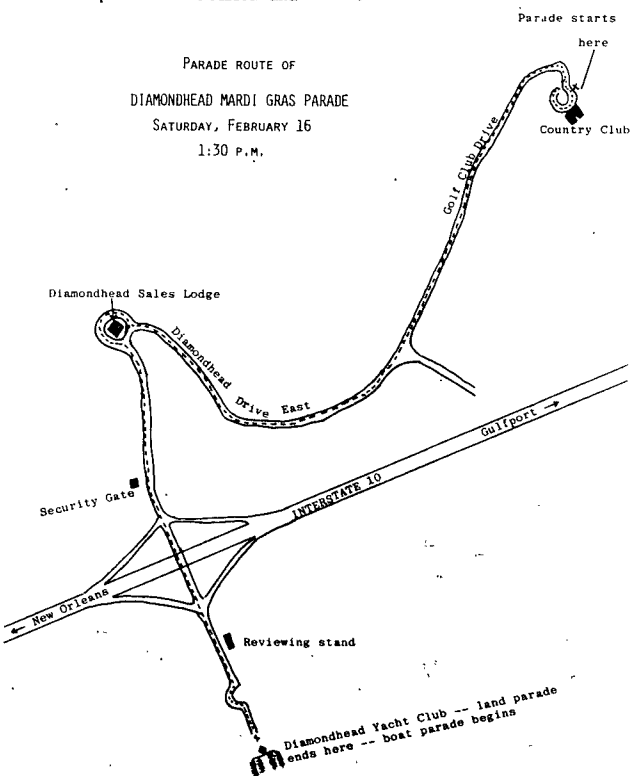

to parade Monday

The Krewe of Kids will stage its fourth annual Cedar Point Parade at 2 p.m. Monday.

The participants will meet in front of North Bay Elementary School to march down Dunbar to Felicity St., Felicity to the Beach, and back up Boardman Avenue to Dunbar.

All interested children are invited to decorate themselves, their bikes, or make a float and join in the fun.

For more information, contact Krewe Captain David Cox at 467-4078.

WAVELAND RESIDENCE DESTROYED—Fire officials looking into the suspected arson of a Waveland residence in the 300 block of Favre Street this week include, from left, Waveland Firefighter Reggie Fayard Jr., State Fire Marshal

Norman Cowart of Wiggins, and Waveland Fire Marshal Lee Ferrell. The house was damaged in a Sunday night blaze, then completely destroyed by another fire Monday morning, the officials reported. (Staff photo by Wayne Ducomb Jr.)

Cochran amendment cuts paperwork

Mississippi Senator Thad Cochran has secured passage of an amendment to reduce the paperwork burden imposed on small businesses by the Federal Trade Commission.

The Senate agreed to Cochran's amendment as it was considering an FTC authorization bill, S. 1991.

Cochran's amendment requires the FTC to reduce by 25 percent the number of small businesses annually selected by the agency for its economic data survey.

And, the FTC is directed to simplify the form which small businesses must fill out quarterly.

In winning Senate approval for his amendment, Cochran told his colleagues the present FTC form is complex and "calls for detailed, sophisticated accounting information."

The Mississippi Senator pointed out "most small businesses are required to hire an accountant, to complete the form accurately, and enormous time and expense are involved."

He noted from the Senate floor that both the General Accounting Office and the Federal Paperwork Commission have recommended FTC action along the lines of his amendment, but the regulatory agency has not followed through.

"The paperwork drain on our economy is staggering," Cochran told the Senate.

"Over 69 million man hours are consumed annually in complying with federal

reporting requirements.

Recent SBA testimony before the Small Business Committee of the Senate set the cost for small business at \$12.7 billion per year."

Area cagers advance in tourney

The Bay High Tigers and Tigerettes and the St. Stanislaus Rock-A-Chaws advanced in District VIII Tournament action this week defeating Picayune and Ocean Springs.

The Pass Christian Pirates, however, lost to the Poplarville five in their opener.

Monday night SSC defeated Ocean Springs 82-71 as the two teams battled to a close 19-16 Stanislaus lead at the end of the first period.

The Greyhounds became foul plagued in the early part of the contest and allowed SSC to hit many one on one situations.

The Rocks hit eight unanswered shots in the second period to move in front 27-16.

The Rock-A-Chaws were led by Brian Logan's 24 points, followed by Joe Sala with 15, Jeff Wallace with 12, and Cary Lang and David McDonnell with 11 each.

SSC is now 18-9 for the season while Ocean Springs is 5-21.

The Bay Tigers defeated Picayune Tuesday night 61-57 in an overtime game.

The 57-57 deadlock was broken when Issac Darenbourg shot a field goal and Keith Johnson hit two free throws, shutting the Picayune cagers out 4-0 in the overtime.

Darenbourg was high scorer with 23 points, followed by Scott Anderson with 10.

The Tigers are now 2-23 and Picayune has a 14-14 record.

The Tigerettes defeated the St. Martin ladies Tuesday night by a 51-35 massacre.

Real Estate

BY GAIL PRESSMAN, GRI

REALTOR

HESITATION CAN BE COSTLY

Once you put real estate on the market, you have to make up your mind to move when the right offer comes. Your asking price should come pretty close to what you are selling price if you have priced your property realistically. The right offer may be your first offer, and if you turn it down, you may never get another as good. However, the offer should be a written one-the only kind that has any real significance and on which you can depend.

Just remember that a legitimate offer should be accompanied by a good-sized

check depending on the selling price. Never accept a verbal promise and take your property off the market. The next day, a good sale may be lost if you are tied up in this type of questionable transaction. You'll never have to worry about this situation arising if the sale of your property is in the hands of a Realtor.

If there is anything we can do to help you in the field of real estate, please phone or drop in at PRESSMAN REALTY, 1232 Hwy. 90 W., Waveland. Phone 467-2224. We're here to help!

Peter Casano wins \$1,200 state science scholarship

Peter Casano of St. Stanislaus High School in Bay St. Louis placed first in written physics competition in a recent State Science and Mathematics Tournament at Mississippi College, Clinton. He received a \$1,200 scholarship for the achievement.

Lawrence Yarborough, also of St. Stanislaus, finished among the top three percent of chemistry students in the tourney.

St. Stanislaus team finished six in oral competition, and individual students took several other awards in written competition.

Some 600 of the state's top students in biology, chemistry, physics and mathematics from some 79 schools around the state vied for the awards.

In the oral competition, Stanislaus team of Yarborough, Casano, Mark Jackson and Scott Weidie won first round competition against six other schools and eventually finished sixth among all schools in the state in the final round.

In the written competition,

awards were presented to the students who scored in the top ten percent in the state.

Stanislaus students finished in the top 10 percent in 11 out of 18 written tests.

Three award winners include Casano, Physics and Math; Yarborough, Chemistry and Math; Jackson, Physics; Jim Collins, Math; Weidie, Chemistry and Biology; Jeff Kergosien, Chemistry and Biology; and Antonio Prado, Chemistry.

James Thriffley and Brother Malcolm Melcher, faculty members accompanied the students to the state competition.

Necessary new law

It seems that just about everytime a person picks up a newspaper, news magazine or tunes into radio television there is something about political corruption.

Currently there are two bills under consideration by the Senate Judiciary Committee which are of vital importance to the people of Mississippi, and which could go a long way in keeping elected officials honest.

One bill would revise the 1975 open meeting law by putting new limitations on secret sessions by public bodies.

Those of you who live in Hancock County know we have far too many secret meetings by political groups who spend our tax dollars.

Another stipulation of the proposed revision of the 1975 open meetings law would require at least 24 hours notice be given before regular or special meetings.

The second bill would declare government records as property of citizens and make these records open to inspection and copying.

Just think, Mississippi is the only State in the Union without this law giving citizens access to these records.

We are fortunate to have many political leaders in Hancock County who cooperate in giving access to these records at this time.

Yet there are others who are not in anxious to allow the public to know what is going on in their tax-supported offices, and the thing which worries us is the fact that others might be elected to those positions who would refuse the public access to these records and we would have no recourse.

We are glad that our newly-elected Governor William Winter endorse this public records access bill and hope the state legislature will see fit to pass this important piece of legislation.

We realize that our own State Senator Martin T. Smith is chairman of the Senate Judiciary Committee and realize that he has passed the bill onto subcommittee after a hearing. We hope he will continue working towards passage of the bill.

Bits 'n pieces

We know many parents will be happy to note that Sheriff Ronnie Peterson intends to enforce the liquor laws.

We have had several reports of certain business places selling beer to minors and heard reports of a bar with high school students gulping beer away.

We are glad our new sheriff will be making close checks throughout the county on this serious problem of teenage drinking.

By the way, the sheriff says it doesn't only have to be the person selling the liquor to teenagers who can be prosecuted, but also any person buying the drinks and passing them to under age drinkers could face contributing to the delinquency of minors charges.

Thank You! Thanks again to the fine Ladies of Nereids for a wonderful parade.

Of course, we do not want to forget our friends of Eros, for as they added to the fine festivities in Waveland again in 1980.

May Nereids traverse the streets of Waveland for decades to come. The weather, well it was a little cold, but with a weatherman participating, it was dry.

Saturday is the big parade day for Diamondhead.

A special feature of Diamondhead, of course is the fact they have not only one parade, but two on Saturday.

The land parade starts at 1:30 p.m. followed by a boat parade from the Yacht Club.

If you haven't seen a Diamondhead Parade, you are missing a special treat.

Hope you can make it.

MISSISSIPPI ECONOMIC COUNCIL
THE STATE
CHAMBER OF COMMERCE

HORSE-AND-BUGGY JUSTICE
The farmers of the state's 1890 Constitution would be hard pressed to recognize modern-day Mississippi.

In the 90 years since those lawmakers bent to that task, the state has undergone changes which have brought it out of the mud and into the mainstream of modern America.

An extensive highway system spans the state, reducing travel from days to hours; instant communication networks have appeared; medical treatment and research have advanced beyond what was dreamed of in 1890; metropolitan areas have appeared; and financial, cultural, and educational institutions of the state have experienced the growth and expansion necessary to serve the state's citizens.

But despite modernization, some systems and institutions have resisted change.

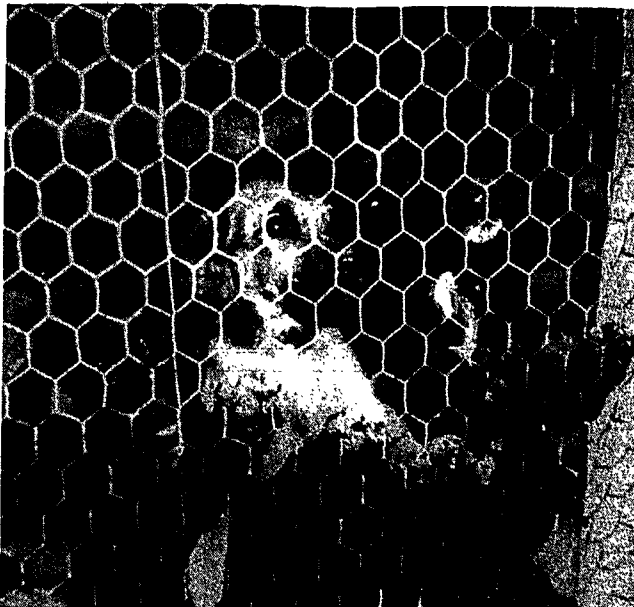

Mississippi's lower court system—the justice courts—operate today, with a

few exceptions, as they did in 1890. A close examination reveals that they are as out of place in 1980 Mississippi as an 1890 horse and buggy.

The office, as constituted, had its justification in 1890 when Mississippi was a rural state with a small, widely scattered population. It was important then that disputes between neighbors involving small matters of property or minor crimes be handled without delay.

But these advantages have largely vanished. The system is characterized by a lack of legal training and experience by most judges—a situation which is becoming increasingly familiar to litigants who, if able, frequently appeal the lower court's ruling to higher courts. Appeals result in higher costs and prolong final determinations.

The Mississippi Economic Council supports upgrading of the state's lower court system.

DON'T FENCE ME IN—The part Terrier and Manchester puppies in the above photo, plus their six brothers and sisters, are temporarily residing at the Bay-Waveland Humane Society awaiting adoption, as is the part Dalmatian puppy shown below without his two siblings. In addition, the Humane Society has one part Collie and Shepherd puppy and a one-year-old part Beagle and Labrador for adoption. For information call 467-9494 or 467-5765.

Senator Thad Cochran

SPECIAL REPORT:

Agenda for 1980

The challenge of devoting your time to those things that are most important is one of the most difficult we face.

As the agenda of issues and decisions come before the Senate this year, I've decided to concentrate my efforts in those areas that fall within the responsibility of the committees on which I serve.

As a member of three Senate committees, Agriculture, Judiciary, and Ethics, I will be involved personally in many of the important initiatives in Congress this year.

In the Judiciary Committee, for example, we will be completing work on a Constitutional amendment to require a balanced federal budget, FBI Charter legislation to give that vital law enforcement agency a clear mandate of its duties and responsibilities, revisions of the federal criminal code, a regulatory reform act, an effort to curb the intrusion of federal agencies into almost every facet of our lives, and the nominations of federal judges in various parts of the country. It has been reported that the Judiciary Committee has jurisdiction over about sixty percent of the legislation that comes before the U.S. Senate.

The Agriculture Committee will be considering a

number of key issues which directly affect the economy of Mississippi, since we are a major agriculture state.

One of the first orders of business is to carefully review the proposed budget for the U.S. Department of Agriculture for the 1981 fiscal year. This budget proposal by the administration affects USDA programs for research at Mississippi State University and Alcorn State University and experiment stations at various locations around the state.

I am particularly interested in proposals involving forestry, fisheries, and realistic target prices and loan rates for major commodities such as cotton, rice and soybeans. In addition to these crops, our state is also a substantial producer of livestock, poultry and dairy products, and we must be sure the economy supports dependable production of meat and dairy items.

As a member of the Foreign Policy Subcommittee on Agriculture, I will continue my efforts to expand market development in order that our farmers will have adequate markets at home and abroad for their products.

This session, I have added responsibilities as a member of the Senate Ethics Committee, a bipartisan six-member panel, charged with

overseeing the standards of official conduct of the U.S. Senate. As you may have seen or heard in the news media in recent days, this new assignment will entail significant and heavy new responsibilities.

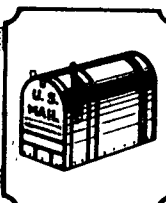

I have urged that our Senate Ethics Committee conduct a full, fair and impartial investigation into all allegations of wrongdoing against any member, and that a complete report be made to the public and to the Senate as soon as possible.

My belief is that public confidence in elected officials and public institutions such as Congress must be improved, so that respect for the representative democracy which has made America a nation of strength and greatness can be restored. The public trust we are sworn to uphold is a standard to which I assign the highest priority.

During the year, I will continue to discuss with you on a regular basis some of the other issues as they come before the Senate. They are many, and our problems are serious. But I am confident that with a spirit of national unity among the citizens of this country and your public officials, responsible solutions can be achieved.

Wanton vandalism mars

otherwise beautiful day

Editor
The Sea Coast Echo
Bay St. Louis.

Dear Sir:

The Nereids parade last Sunday was fantastic, as always! We in this community can be proud of this organization—and we are.

However, it's also a shame that such a beautiful day has to be marred as it was for a New Orleans visitor of ours who had his car vandalized. The car

was properly parked on a sidewalk, and someone, without reason, smashed in the window on the driver's side, as well as puncturing two tires.

Such so-called "revelers," and those drunks who injured themselves, their fellow man or animals, should not be tolerated, nor their criminal acts condoned or excused.

Sincerely yours,
Edwin R. Ling

Assessor's exemption program

draws property owner praises

February 11, 1980
The Sea Coast Echo
Bay St. Louis

Gentlemen:

I, like the vast majority of your readers, enjoy receiving letters but, also like this majority, very seldom get around to writing.

I feel compelled to write this letter of thanks to our Hancock County Tax Assessor and Collector, Mr. Edward (Eddie) Murtagh, for his method of handling homestead exemptions this year.

The prompt mailing of the forms with the return envelope stamped with the proper postage was a great service.

If one would be able to figure the

amount of manhours saved by the taxpayer as well as the savings in the cost of gasoline which otherwise would have been consumed, I am sure it would result in a sizeable sum.

Mr. Murtagh's staff members also deserve public recognition for this operation plus the many other duties they perform with efficiency, courtesy and accommodation.

Being a lifelong resident of Hancock County, and slightly familiar with the political surroundings, I cannot close without pointing out the fact that this service was instituted two months after the election and not two months before.

Very truly yours,
M.A. "Bud" Phillips Jr.

Rep. Dollar urges

1980 gasahol legislation

Feb. 11, 1980

Editor
Sea Coast Echo
Bay St. Louis

Dear Sir,

The international crises in Iran and Afghanistan have brought home to the general public the importance of developing alternative sources of energy and thus decreasing our dependence upon unstable foreign sources of oil, particularly those in the strife-ridden Middle East and central Asia.

Twenty-four states and the federal government have already enacted legislation legalizing the production of gasahol and providing tax incentives for its production.

Gasahol, a mixture of gasoline and alcohol for use in powering motor vehicles and equipment, will help cut down on the use of foreign oil while at the same time providing an additional market for many agricultural products.

There are presently over 15 private concerns interested in going into the gasahol production business in Mississippi.

Should we be successful in gaining passage of gasahol legislation during the 1980 session of the Mississippi Legislature, in investment capital and

several thousand new jobs for Mississippians, have indicated that gasahol could be available at the pump within eight months after its passage.

Although gasahol admittedly will not be the ultimate solution to all of our nation's energy problems, it would be a giant step in the right direction.

This is in addition to the fact that gasahol would be an obvious boon to agricultural interests and is proven to burn cleaner and give better gas mileage than regular or unleaded gasoline.

There is no problem more serious to this nation's security than our present energy crisis, and the American people are crying out for innovation and technology in hope of finding a solution.

The State of Mississippi has a responsibility to do its part in this regard, and one step we could take would be to enact gasahol legislation during the present legislative session.

Passage of enabling gasahol in the State of Mississippi should be a top priority of the 1980 session of the Mississippi Legislature.

It would unquestionably be one of the most far-reaching pieces of legislation passed in recent years.

Sincerely,
Rep. Dennis Dollar

A TRIBUTE TO AMERICAN VETERANS

By REP. TRENT LOTT
5th District, Mississippi

With the American veteran population standing at 30 million, the largest in our country's history, it's only proper that Congress take a deep interest in veterans rights and benefits.

Veterans and their problems were among the issues discussed recently at the Republican Platform Committee, of which I am vice chairman, took recommendations for future action. While veterans, of course, should not be considered along party lines, I was delighted that Cooper T. Holt, a former commander-in-chief of the Veterans of Foreign Wars, gave testimony.

Some of the statistics he gave were very interesting. For example, the average age of the American veteran is 46 years, with the oldest average (84 years) from World War I vets and the youngest (32) from Vietnam.

But his testimony went much further than that. He cited that fact that the Veterans Administration budget fell from 5.1 percent of the total federal budget in 1975 to just 3.7 percent in fiscal year 1980.

He said the veterans' hospital and medical care system is deteriorating, with some veterans being denied the medical care at VA facilities they rightly deserve. He said veterans are

concerned that for three consecutive years, no cost-of-living increase has been allowed for Vietnam veterans seeking education benefits under the GI Bill.

He also cited efforts made over the past three years to curtail veterans preference in federal employment. I support veterans preference because I believe veterans deserve extra consideration in civil service employment.

Most American veterans live on modest incomes and are shocked when needed medical care or other benefits are denied. Veterans truly deserve a fair shake from their government.

Part of that fair shake means national recognition with programs such as "No Greater Love," which pays tribute to veterans confined in VA hospitals. One such program will be held at the Biloxi VA Center Feb. 14.

The fair shake also means a realistic budget for the VA, continuation of veterans preference and opposition to any national health plan which could invade the VA hospitals and medical care system.

Holt said the government needs to regain the confidence and support of war veterans who performed a special service to our country. I believe he's right.

As one of our former presidents said, "The nation which forgets its defenders will be itself forgotten."

Area principals named Read-A-Thon officials

Principals of four area schools have been named coordinators of the Mental Health Read-A-Thon here, announced Mississippi Mental Health Association President Jane Cotton.

James O'Hara, principal of Hancock North Central Elementary; J.D. Penton of Charles B. Murphy Elementary; James D. Baldree of Waveland

Elementary; and William Haddock of Gulfview Elementary were named as school coordinators.

Students of these schools will be calling on their relatives and neighbors to obtain pledges for each book they read.

Walter Peyton, Chicago Bears running back, and Archie Manning, New Orleans Saints quarterback, are serving as Honorary Chair-

men of the Read-A-Thon.

Each student participating in the Mental Health Read-A-Thon will become eligible for prizes in several categories, in addition to receiving an autographed picture of Walter Peyton and Archie Manning.

Proceeds from the Read-A-Thon will be used by the Mental Health Association in Mississippi to continue the fight against illness.

MHAM is a statewide voluntary non-profit organization devoted to:

Reducing the stigma of mental illness; Improving services for the mentally ill; and

Preventing mental illness and promoting mental health.

It is the only statewide organization of its kind engaged in advocacy for the mentally ill.

McCullough receives contract extension

By RICH ADAMS

Bay St. Louis School Superintendent J.D. McCullough's contract was extended an additional year and all present administrators were rehired for the 1980-1981 school year Monday night by the Bay St. Louis Municipal Separate School Board.

The board also approved hiring Mike Cave, junior high school science teacher and basketball coach, as assistant principal at the junior high for the remainder of the current school year.

Also Monday the board retreated behind closed doors for nearly two hours in executive session "to discuss a student," according to Board President Virginia Gex.

Shortly after returning from the executive session, Board Member Walter Turcotte moved to extend McCullough's contract one additional year.

"We approved the administrators for one more year, and I move we extend Mr. McCullough's contract a year," Turcotte said.

The motion was seconded by Board Member Betty Diboll and approved by a unanimous vote.

Prior to extending McCullough's contract, the board rehired the following administrators for the next

school term:

Donald Caldwell as assistant superintendent; Robert Magee as high school principal; Frank Ladner as assistant high school principal; W.J. Cameron as junior high school principal; Rogers James as North Bay Elementary principal; James Baldree as Waveland Elementary principal; and Wilmer Seymour as athletic director.

In other business, the board passed a resolution to the state legislature supporting a bill recommending teacher pay raises.

The bill is being filed by the Gulf Coast School Boards Association.

Also at Monday's meeting the board: —Approved payment of \$75 to Scaffidi and Son for work on a trash dump area. Payment was \$15 an hour for five hours of work;

—Approved payment of \$1,786 for transporting three students with hearing problems to Pass Christian where a hearing consortium is conducted; and

—Approved a change order for repair of fire damage at the senior high school totalling \$2,071. McCullough said the change order will save the district \$600;

Picayune police seek extradition of suspect

By WAYNE DUCOMB JR.

The Picayune Police Department has initiated extradition proceedings against James F. Stuart, 34, of Bogalusa for alleged armed robbery of \$2,285 from the West Canal Branch of Hancock Bank in Picayune last Friday.

"We've started extradition proceedings for Stuart, but an alleged accomplice, Betty Jean Magee, did not wave extradition," said Picayune Police Chief L.L. Lower Wednesday afternoon.

"Magee, 39, also of Bogalusa, was arrested as an accessory before the fact for allegedly driving the getaway car for Stuart. Stuart was charged with armed robbery because he indicated to the teller he would hurt her and we found a weapon when we arrested him," Lower reported.

"We recovered all of the money except for about \$100," Lower added.

"A combined investigation by the Pearl River County Sheriff's Department, the Washington Parish Sheriff's

Office, the Bogalusa Police Department and our department led to an arrest of the two suspects about 3 a.m. Saturday morning," Lower explained.

"Stuart and Magee were arrested at their residence. Stuart was released from the Washington Parish jail in Bogalusa on \$50,000 bond and Magee was released on \$25,000 bond.

Sheriff plans roadblocks to check car registration

By ELLIS CUEVAS

The Hancock County sheriff's office will be setting up road blocks throughout the county to check improperly tagged vehicles and other violations, Sheriff Ronald A. Peterson reported this week.

"We know how many of the violators are with out of state tags and where they live. If they live in Hancock County and are required to have Mississippi tags and do not, we are going to ticket them," Peterson said.

"Our office receives many complaints about children being transported to schools in vehicles with Louisiana tags, as those parents who have Mississippi tags feel the other parents also should, which I agree with," Peterson continued.

While checking for out of state tags, the sheriff said his office will also check for vehicle inspections and expired license plates at the same time.

Peterson added that there are very few residents such as regular military who are exempted from purchasing Mississippi tags.

St. Ann's Bal Masque brings magic to Clermont Harbor

By VIRGINIA THOMAS
Krewe Publicist

Mr. and Mrs. Louis Foret of New Orleans and Clermont Harbor reigned as King and Queen of St. Ann's sixth annual Bal Masque staged Feb. 9 at the Parish Hall.

Theme of the extravaganza was 'Predictions for the 1980's'. A myriad of swirling lights in the darkened ballroom signaled the opening of the Ball as twinkling stars and sparkling ball, depicting the sun, moon and planets cast a glittering effect upon the scene.

Queen Ann VI was resplendent in an imperial gown of candlelight silk, fashioned along empire-style lines. The fitted bodice was complimented with silver, gold and pearl braid, the semi-full skirt featured applied sprays of silver sequins.

Her royal dress was accented by a gold medici collar attached to a black cathedral length train edged in silver and gold with scrolls of gold sequins.

The center motif of the mantle was the gold applied

letters "SA" brilliantly outlined in gold sequins. A bejeweled silver tiara, matching sceptre and long white gloves completed her regal attire.

Her majesty, a heavenly body from outer space, has come to investigate the wondrous happenings in Hancock County.

The King was elegant, attired in white tails and a ruffled white shirt. His crown of gold and red velvet was encrusted with rhinestones, his mantle and sceptre matched the Queen's.

Maids to the Queen were presented, depicting several undreamed of discoveries making Clermont Harbor the hub of the world.

Mrs. Bertie Jensen, symbolizing fire, represented gas and oil, enough energy producing materials to supply the world.

Mrs. Carlos Killeen represented the discovery of a miracle additive found in our water virtually eliminating disease.

Mrs. Jerry Walton was

costumed to represent food grown in the soil of our county

which was found to contain such an unusual amount of nutritive value that a small amount of grain can insure good health to an entire city.

Mrs. Holly Killeen represented communications and travel. While drilling, ancient scrolls were unearthed which contained formulas for transmitting messages and matter on beams of light traveling faster than sound.

Mrs. Maurice Shea represented leading fashions of the decade, since Clermont Harbor has become the fashion center of the world. Dukes to the King were Mr. Tom Jensen, Mr. Pat Killeen, Mr. Jerry Walton, Mr. Patrick Killeen and Mr. Maurice Shea.

Wearing short pink dresses, white stockings and slippers, were Pamela Lang and Kelli Ladner, her majesty's train bearers, and wearing short blue dresses were Dawn Lang and Gwyn Lang.

Representing the Galaxie, the regally garbed Captain, Mrs. Gloria Moran, wore an elaborate costume of shimmering silver shine, featuring a motif of silver stars. Her

headpiece was adorned with ostrich plumes.

Honoring the royal couple were last year's king and queen, Mr. and Mrs. Davis Caillier, who were presented to the krewe. Mrs. Caillier chose a white chiffon gown for the occasion.

The Royal entertainment included several dance routines by the High Steppers-Angel Bourn, Charlene Necaise, Kyndra McArthur, Tina Piazza and Darleen Collier.

Krewe members danced about the ballroom scattering carnival favors to the delight of the loyal subjects adding to the entertainment.

Following the Grand March led by their royal highnesses, the King asked that everyone join him in a toast.

Prizes for the best costume were awarded to Mr. and Mrs. Conrad Mauffray and Mr. and Mrs. James Davis Jr. Grand marshal for the gala affair was Gerard Boos and master of ceremonies was Monroe James.

Decorations were designed by Mrs. Monroe James and constructed by Monroe James

and Leonard Rupp.

Committee members include Mrs. A. M. Thomas, president; Mrs. Monroe James, vice president; Mrs. Alvin Ladner, treasurer; assistants to royalty, Mrs. Leonard Rupp and Mrs.

James Davis Sr.; refreshments, Mr. Leonard Rupp and Mrs. James Davis Sr.; membership, Mrs. Lee Hote and Mrs. Mabel Brown; Mrs. Josie Herbig, door. Music was by The Country Classics.

AFTER-GUSTS FROM FREDERIC
Almost five months after Hurricane Frederic roared ashore along Mississippi's eastside coastline, many of that devastating storm's scars remain on the face of the land and its structures as after-gusts of disenchantment still brew over a strict regimen of clean-up and recovery operations in rural Jackson and adjoining counties.

Many Jackson county farmers and rural dwellers have become disgruntled because they feel they are getting the short end of the recovery stick despite obviously well meaning government programs designed to help them.

This writer revisited Pascagoula last week to observe the clean-up operation and to talk with farmers and others involved in the recovery. Since then, he has visited one of the major

federally assisted agencies involved in the clean-up operation to review the restoration plan in the light of complaints against it.

On the surface it would appear that the federal disaster aid program expects farmers to do more on their own than their neighbors in town, and substantially more than nearby Alabama counties where the U.S. Army Corps of Engineers cleaned up at no cost to landowners.

Mississippi landowners, many of which are farmers or live on small rural holdings, qualify for two restoration programs administered by the state office of the ASCS, or U.S. Agricultural Stabilization & Conservation Service. The state agency issues the guidelines from Washington for cost-sharing restoration of permanent fences damaged by Frederic and for the removal of certain debts from farmlands.

County ASCS committees, consisting of locally elected farmers, direct the county programs consistent with the law and administrative guidelines from Washington and the Mississippi state office.

That is where the rub comes. The Jackson County ASCS committee feels that the letter of the law is too restrictive and expensive for local landowners to recover satisfactorily from the storm-damages—especially when compared with other recovery programs they see or hear about in neighboring Alabama and in coastal municipalities and in the light of their expectations as citizens beset by a natural disaster.

Administrators of the program in the state office counter that they must be prudent with federal money, avoid rip-offs, stay within guidelines, and appraise

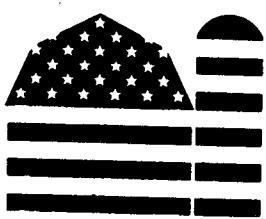

damages at conservative, do-it-yourself levels of reimbursement. They contend that their appraisals have run higher than actual costs more often than lower, and offer to correct errors of damage miscalculation.

Each landowner suffering damage in which he desires disaster assistance is asked to submit an application at his local ASCS office after which an inspection is made of the reported damage by an ASCS appraiser. The county committee then acts on the application and, if approved, the work is done. Next comes a final inspection and payment is authorized with the farmer paying one-fifth of the cost and the government four-fifths.

Farmers have experienced some difficulties in getting payments when a county committee has seen fit to set a higher figure for restoration than the appraiser authorized. Consequently farmers have appealed regularly for assistance in negotiations from their elected representatives in Washington.

Some farmers report that they do not have the labor, equipment, or other resources to meet the do-it-yourself reimbursement philosophy of ASCS. Some say they must hire clean-up crews to expedite the job in view of the fact that spring is just around the corner. Yet the ASCS program is not designed to pay for custom work. Further, many pecan orchards suffered breakage considerably in excess of a \$100 per acre maximum payment authorized to resume normal farming operations in the rural areas.

So meanwhile out on many coastal Mississippi farms, red maples already are abloom finding a lot of farmers too busy personally to split either rails from their fallen timber or hairs over Frederic's orchestrated clean-up and fix-up aftermath.

Hancock official warns

VA benefit figures may be incorrect

A large number of veterans and widows of veterans who are entitled to Veterans Administration disability and death pension benefits are currently receiving letters showing incorrect monthly payments, according to Mike Ladner, service officer for Hancock County.

Anyone receiving an incorrect award letter from the VA should contact their local Veterans Service Officer for assistance, he explained.

In November and December, veterans and widows received annual income questionnaire cards to be completed and returned to the VA. The income information is required under Federal laws each year, and the information shown on the

cards enable the VA to determine whether a person continues to be eligible for the benefits being paid.

A number of people who completed the income cards are now receiving letters which have been erroneously prepared by the computers at the VA Payment Center, Ladner said.

Many such letters are indicating pension payments for calendar years of 1972 through 1979, but fail to show any amounts due for 1980, explained.

When these letters are received, the pensioner should contact his local Veterans Service Officer as soon as possible. The Service Officer can check with the VA regional office and determine whether any other action

should be taken to be certain that the benefits that are payable continue to be sent at the regular time each month.

"These erroneous letters can cause anxiety for the

veterans and widows who must depend upon their small monthly payments to be able to provide for themselves in these inflationary times," Ladner said.

Central Bell tells

ad valorem payments

Ad valorem taxes paid by South Central Bell to Coast counties and cities amounted to over \$3.1 million according to Franklin Kyle, Jr., district manager for the company's Gulf Coast District.

In Hancock County and the cities of Bay St. Louis and Waveland, the total was \$221,546.61.

In Harrison County and the cities of Pass Christian, Long Beach, Gulfport and Biloxi, the total was \$1,956.64.

In Jackson County and the cities of Moss Point,

Pascagoula and Ocean Springs, the total was \$923,188.10.

"South Central Bell is one of the state's largest taxpayers. As a result of our operations, the total tax liability for 1979 borne directly or indirectly by us and our customers was over 100 million dollars," Kyle said.

"Looked at another way, for every \$1.00 in revenue, South Central Bell and our customers incurred almost \$.23 in Federal, State, Local and other taxes during 1979," said Kyle.

City-County Library tells new selections

Compiled by
Sherry Schwabacher

The Mardi Gras season is upon us and everyone is busy, but no one can watch parades and go to balls all the time.

When you find yourself with a moment to spare, how about reading one of the new books from any branch of the Hancock County Library System:

VOGUE BODY AND BEAUTY BOOK by Bronwen Meredith. This sumptuous yet eminently practical handbook gives the facts and possibilities about health and beauty honestly and without feeding women's dreams and illusions.

MAKE YOUR OWN ANIMATED MOVIES by Yvonne Anderson. A book to show and tell children-or adults supervising film-making activities-all they need to know to make successful animated movies.

THE TRANQUILIZING OF AMERICA by Richard Hughes and Robert Bravin. This book could save thousands of lives and potentially improve the quality of life for additional millions of people. Maybe it will help rid our society of the crazy, addictive idea the pill will solve human problems.

SKIN DEEP by Donald T. Moynihan, M.D. This is the gripping, true story of a young doctor's first two years as a plastic surgeon in a large, metropolitan hospital.

SECOND WIND by Bill Russell. Not just another "autobiography" of an athlete written "with" a hack sportswriter, but a portrait of a fascinating, complicated, opinionated, cantankerous, thoughtful, funny, and sometimes profound man who once happened to play basketball for a living, and whose lively, questioning mind takes nothing for granted.

MURDER BEGETS MURDER by Roderic Jeffries. A wealthy British invalid dies on Mallorca, and no one mourns when his mistress dies soon after, ostensibly of food poisoning. Inspector Alvarez, the Mallorcan detective, must travel all the way to England to learn something that convinces him that murder could beget

murder.

ROADMARKS by Roger Zelazny. The Roads runs from the unimaginable past to the far future, and those who travel it have access to the turnoffs leading to all times and places—even to the alternate timestreams that never happened. **ROADMARKS** is a dazzling achievement for one of today's most highly regarded writers, whose **LORD OF LIGHT, CREATURES OF LIGHT AND DARKNESS**, and five volume **Amber** series has already brought him many awards and much critical acclaim.

DEATHBITE by Michael Maryk and Brent Monahan. Well, **JAWS** is waiting for us in the water, Bigfoot is lurking in the countryside, and now we have a book that will make us think twice about walking around town. A deadly snake is loose in the streets of San Diego, leaving a trail of corpses in its wake.

THE KRYPTONITE KID by Joseph Torchia. A novel of a young boy's fantasy world, told through his letters (always unanswered) to Superman, and nightmare journey into the "Fifth Dimension", where fantasy ends and reality begins and where he finally learns who Superman really is.

DANCE TIME by Beverly Jablons. The story of an exuberant New York family who educates and renews a Cleveland housewife on a "vacation" in the Big Apple. Here is a book that is delightful, lovable, sensational, and wildly funny, with that truly old-fashioned thing—a happy ending for nearly everybody.

OUR MIRACLE CALLED LOUISE by Lesley and John Brown. On July 25, 1978, Louise Brown, the first "test-tube" baby, was born. Her birth was the most widely publicized scientific event of the decade, for Louise was the first human life to be con-

ceived outside the womb.

Find yourself in the doldrums? Feel spring fever coming on? Here's a most effective antidote—one of the new books now available at any branch of the Hancock County Library System:

PLEASURE DOME by David Madden. A man with a compulsion to tell stories tells one to the wrong person, and has to face the consequences of the violence that he has provoked.

THE UNLIMITED DREAM CO. by J.G. Ballard. A tale of exotic miracles in which a young social misfit steals a

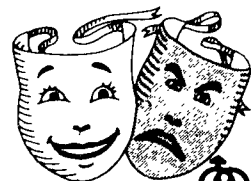

plane and crashes it. He then develops supernatural powers, using them to transform the town where he crashed into a tropical paradise and teaching the townspeople to fly.

THE IKON MAKER by Desmond Hagen. A short, intense account of a relationship between a mother and her son—as she tries to learn what terrible memories haunt his sleep, a quest that leads her to an understanding of herself as well as of another generation.

FIRST STRIKE by Douglas Terman, a novel of a Soviet plot to start World War III.

with the help of an ambitious American senator.

HELIX by Desmond Ryan and Joel Shurkin. A foreign graduate student, anxious to advance his career, is engaged in secret genetic experimentation. He has tried to find a cure for multiple sclerosis by altering its genetic code, but instead he unleashes a totally new and deadly virus on the city of Philadelphia.

Census office names new area manager

Charlie W. Jones has been named manager of the temporary 1980 census district office in Hattiesburg, according to Mr. Percy R. Millard, Director of the U.S. Bureau of the Census Regional Office in Dallas.

The Hattiesburg census office, to be located at 324 Broadway Drive, will employ approximately 750 temporary workers at the peak of census operations next spring.

The temporary office will remain open until census operations are completed, expected to be sometime during the summer this year.

The 1980 census will be taken largely by the mail-out, mail-back method. On Friday, March 28, 1980, the Postal Service will deliver a census questionnaire to each U.S. household.

Residents will be asked to complete the questionnaire and return it four days later, on Tuesday, April 1—Census Day—in a postage free envelope.

The questionnaires will be returned to the temporary census office where they will be checked and processed by

census workers. If questionnaires are not mailed back, census takers will make house-to-house visits to get the required information. Jones is one of 4 census district office managers to be named in Mississippi and one of 409 to be selected throughout the nation.

Local teachers review career program

By WAYNE DUCOMB JR.
Elementary teachers from the Bay St. Louis Municipal Separate School District recently attended a Career Education Program (CAP) seminar at Waveland Elementary School.

"The CAP program has been mandated by the state, is being spearheaded by Assistant School Superintendent Donald Caldwell and is designed to increase elementary student's awareness of various types of jobs," Betty N. Jones, Title I supervisor for the Bay school district explained.

"The purpose of the seminar was to plan curriculum for this year and next year in order for teachers to include career education into their classes," Jones said.

Jones further explained the national program, under the direction of the State Department of Education, has funded the Bay school district \$6,000 and teachers will begin incorporating the program into their classes immediately.

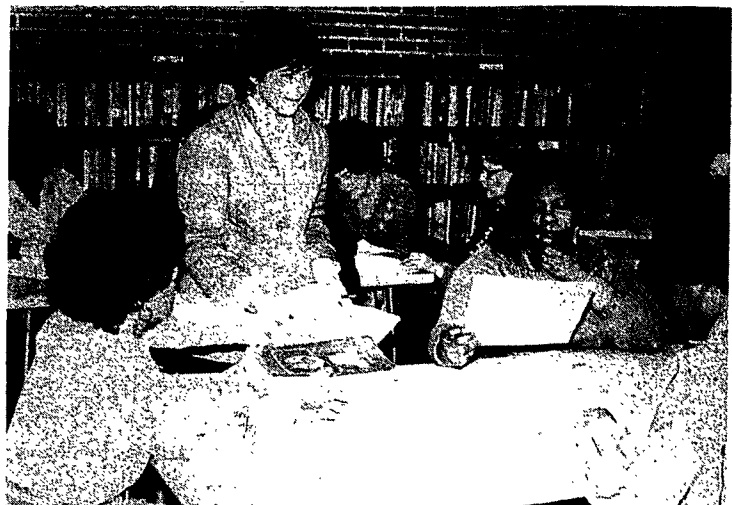

"The CAP is taught on different grade levels from kindergarten through the

sixth grade," said Susan Dietrich, CAP consultant from the Boston Mountain Educational Cooperative in Greenland, Ark.

"The teachers will have

learning activity packets for students and each packet teaches a career. For instance, 32 careers are taught to students in the first grade and covers careers from an

entry to a professional level. In the medical field, students will learn the jobs ranging from a nurses aid and dental technician to a doctor," Dietrich explained.

CAP CONSULTANT—Susan Dietrich, standing, Career Awareness Program consultant from the Boston Mountain Educational Cooperative in Greenland, Ark., explains to Bay St. Louis Municipal Separate School District fourth through sixth grade teachers procedures for including the CAP in with their curriculum. The Bay school district is one of three Mississippi districts funded in the national program designed for kindergarten through sixth grade students. (Staff photo by Wayne Ducomb Jr.)

"The program originated in Northwestern Arkansas where we looked at the needs of the school district and found out that most kids didn't know about various jobs, so we developed a career education program," Dietrich further explained.

Dietrich said Arkansas, Mississippi, Georgia, Michigan, Nebraska and Washington state have adopted the CAP.

"The Bay school system along with Gloster Elementary in Amite County and three elementary schools in Newton County are the only Mississippi school systems included in the program," Dietrich commented.

Dietrich works for the National Diffusion Network (NDN) which is a branch of the U.S. Office of Education. "The NDN is a joint dissemination and review panel which helps find adopting schools for the program. The Career Awareness Program is known as a developer demonstration project and it was determined

that students in the Bay school system have an unusually low awareness of various types of jobs," Dietrich explained.

"The CAP is an infusion program which is taught during regular classes," Dietrich added.

For example, an English class packet may explain a TV announcer's job along with an exercise in synonyms, or a creative writing packet might explain a newspaper reporter's job.

MARDI GRAS PARTY

The annual Mardi Gras party will be at the American Legion in Bay St. Louis again this year.

Jay Heitzman will have his band for dancing and music. A king and queen will be crowned by last year's royalty.

Anyone 60 or over is invited

USCG Auxiliary Flotilla

sets safe boating course

Flotilla 35, U.S. Coast Guard Auxiliary, will present a safe boating course beginning Tuesday evening, Feb. 26 at the Pass Christian Yacht Club, according to Harold Eddins Flotilla commander. Registration is at 1900 hours (7 p.m.). Classes will continue each Tuesday evening through April 8 from 7 until 9 p.m.

Subjects will include boat handling, rules of the road, required equipment, navigational aids, charts and compass, marine engines, weather, and marine radio

Pass students

tapped by PKT

Twenty-four students at Gulf Coast Junior College's Jefferson Davis campus were initiated recently into the Omicron Alpha chapter of Phi Theta Kappa (PTK), including Belinda Clark and Clark Shull, both of Pass Christian.

The only national honor society for American junior colleges, PTK members are selected on the basis of academic excellence, leadership and citizenship.

CADET GLANCEY
Cadet Donna M. Glancey, daughter of Dr. B. Michael Glancey of 507 Forest Ave., Long Beach, Miss., has been named to the dean's list for outstanding academic achievement at the U.S. Air Force Academy.

To qualify for this honor, cadets must maintain a 3.0 grade point average on a 4.0 scale in all subjects for the preceding semester.

Cadet Glancey, a member of the class of 1982, will wear a silver star insignia in recognition of this outstanding scholastic performance.

Upon graduation from the academy, cadets are commissioned second lieutenants and awarded a bachelor of science degree.

She is a 1977 graduate of Long Beach Senior High School.

Her mother, Mary P. Glancey, resides at 7 Bahia Circle, Ocala, Fla.

and those in costume will be judged to select this year's court. TIME: 1 p.m. to 3 p.m. We certainly do thank the Legion for the use of their building. They are very kind to our seniors and are greatly appreciated by all.

NEW CLASSES
Our classes are being filled rapidly. In fact, we are unable to take any more new persons

into our program at present as our contract with the State Department of Public Welfare allows us 200 in recreation and we already have this number enrolled.

Please put your name on the waiting list if you are interested.
WAVELAND
For those who are already registered with this program, we have openings in our new classes in Waveland.

Tuesday we have a needlepoint class with Gerry Blanchard as teacher. Come and join her the Tuesday after Mardi Gras at 9:30 a.m. at the Civic Center.

Wednesday at 9:30 a.m. we have a macrame class. Margaret Benny teaches this class and it is for beginners. We already have one man in the class, so don't be shy - come!

Thursday is the day for knitting and crocheting. We could use some expert help with this class for beginners. Some of our staff will be there, but they don't have a lot of talent with that craft.

Pere Cabibi is one of our expert volunteers who will help you with knitting and Celine Fairconneture will help with the crocheting, but if you can come and help, we would appreciate it. 9:30 a.m. at the Civic Center. Beginners need lots of attention.

Tuesday blood pressure readings are now being taken at the Library in Waveland. It was too hard for the nurses to hear in the building with all of us talking to each other.

This way, they will be able to get a more accurate reading. Come for refreshments at the Civic Center still, but then go to the library for

the reading. The Library opens at 10 a.m.

CETA WORKERS
We are fortunate to get help from the CETA Program. We have some new workers at the Center and are very thankful to our County and City for assigning us these workers as they are great young women who are trying to learn skills that will take them into the job market.

We have been very fortunate to get such good workers, and the extra help so we can provide better service to you.

If the rest of the country had as good workers as we get, the program would have a fine reputation. We also have a new older person we are thankful for, as well as those who have been with us. We are fortunate indeed with our staff.

Youth Conservation Corps to employ 487 this year

The Youth Conservation Corps will employ 487 youths working in 23 camps across the state this year, offering eight weeks of summer employment in a "well-balanced earn-work-learn experience" for young people.

All camps are coeducational and all youths who have reached their 15th birthday by June 1 and have not yet reached their 19th birthday by Aug. 31 are eligible to participate in the program.

The 23 camps in Mississippi this summer will be operated by federal, state, and local agencies. They will operate three types of camps—seven-day residential, five-day residential, and non-residential.

There will be four of the seven-day residential camps. At these camps the enrollees remain in camp for the entire 8-week period.

These four camps will be at Keesler, housed at Keesler Air Force Base with 26 enrollees; Bienville, housed at Clark County Junior College with 35 enrollees; Harrison, housed at Jerkinston Junior College with

30 enrollees.

Youth living anywhere in Mississippi are eligible to apply for any of the four seven-day camps.

There will be one five-day residential camp at Meridian with housing at the Naval Air Station for 26 enrollees. At this camp the enrollees will report on Monday morning and return home Friday evening. Youths for this camp will be recruited from surrounding counties.

The remaining camps are non-residential camps. This means that the enrollees are recruited from within the local commuting area of the camp. Enrollees will be required to commute to work on a daily basis.

The 18-non-residential camps are established at various locations throughout the state. They will be: Natchez Trace Parkway with 34 enrollees at Tupelo; Gulf Island with 40 enrollees at Ocean Springs; Natchez Wildlife Refuge with 15 enrollees at Brooksville; Choctaw with 30 enrollees at Philadelphia; Yazoo National Wildlife Refuge with 10 enrollees at Hollandale; Indian Creek with 35

enrollees at Tishomingo; Holly Springs National Forest with 24 enrollees at Potts Camp; Tombigbee National Forest with 8 enrollees at Houston, 8 at Tillatoba, and 16 at Ackerman; Strong River Ranger District with 21 enrollees at Raleigh; City of Jackson with 30 enrollees; City of Natchez with 10 enrollees; City of Vicksburg with 11 enrollees; and 10 enrollees at each of the following State Parks: Clark County, Holmes County, Roosevelt, Lake Lowndes, Wall Doxey, and George Pain.

Applications are available at all schools, both public and private; offices sponsoring camps; and local offices of the Department of the Interior and the U.S. Forest Service.

Youths who are unable to obtain applications from the above sources may get one from the U.S. Forest Service, 100 W. Capitol St., Suite 1141, Federal Building, Jackson, MS 39201, or by calling (601) 969-4391. Applications must be mailed in time to reach Washington, DC by March 15.

The YCC computer in Washington selects the enrollees on a random basis, so all applications have an equal opportunity for selection.

MICROCOMPUTERS

A television documentary special report on the use of microcomputers for elementary classroom instruction will be broadcast at 2 p.m., Saturday, February 16, on the Mississippi ETV Network. The program explores the growth of microcomputer use in schools and demonstrates, from a child's perspective, the far-reaching implications on society. Also included in "Don't Bother Me, I'm Learning" are interviews with teachers, parents, consultants, university experts, computer research spokesmen and students. The program was made possible by a grant from Bell & Howell.

Ask the VA

Q - I intend to purchase a home in the near future using my Veterans Administration home loan guaranty eligibility. What is the current interest rate?

A - The current interest rate is 11.5 percent. However, you should contact the nearest VA regional office prior to actual purchase of a home since interest rates are subject to change.

Q - May a veteran in college under the GI Bill and needing less than 12 credit hours to graduate take 12 or more hours in his final term in order to receive full-time educational benefits?

A - Yes, provided the veteran or eligible person has sufficient remaining entitlement.

Q - I have a participating Veterans Administration insurance policy which will earn a dividend this year. When may I expect to receive this dividend?

A - Unless otherwise specified, the dividends for each eligible policy are payable on the day before the policy anniversary date unless the policy is terminated sooner by death or surrendered for cash.

Q - Must I take my Veterans Administration insurance dividend in cash or do I have other options?

A - There are several dividend options available to policy holders other than cash. For full information contact your nearest VA regional office.

Special Athletics, presented by the Bronze Metal Club.

The Bronze Metal Club sponsored the 1979 International Summer Special Olympics.

The award was announced during a recent meeting at the Legion Home on Coleman Avenue in Waveland.

During the meeting, conducted by President Marion Kennair, a schedule of coming events was discussed.

"Easter Parade of Fashions" will be sponsored by the unit with fashions on display from the Princess Dress Shop. The fashion show is slated March 1 at the Legion Home, preceded by a noon salad bar luncheon.

March 15 is the date for the annual St. Patrick's dinner and the Auxiliary Unit will host the Waveland Police and Fire Department April 8.

Following the business meeting a social hour was hosted by Mrs. Aggie Canady and Marion Kennair.

ON THE DRAWING BOARDS A BILLION DOLLARS OR MORE

United Gas has mounted aggressive programs to acquire new natural gas wherever it can be found — Oklahoma, Texas Panhandle, Wyoming, Alaska, Canada, Mexico and other areas.

Billions of dollars in new projects are under way or on the drawing board to maintain energy supplies to the customers of United Gas.

United Gas has participated in the building of large long-distance lines to new discoveries in the Gulf of Mexico offshore Louisiana and Texas. We are participating in major projects to tap gas reserves in

Alaska and Canada. And we are seeking natural gas from Mexico.

United Gas also is seeking Federal approval to build a 635-mile, 30-inch pipeline from the Texas Panhandle through Oklahoma to North Louisiana. The proposed \$386 million pipeline will enable United Gas to attach to its Gulf South pipeline system gas supplies in Oklahoma and the Texas Panhandle region and, through transportation agreements, in the Rocky Mountain area.

My darling Jim, you made my dreams come true the day we said I do. Your loving bride, Suzie.

Dear Mama, Happy Valentine's Day. Always remember that I love you dearly. Love, Charlotte.

Dear Sharon, We love you more than words can say-so we made it short! Seriously, Happy Valentine's Day to a loving wife and mother. Love, Donald, Scott, Jeff, and Grandpa says 'Me too!'

Mrs. Wuesthoff, Love you as a religion teacher. Love Tori.

Dear Tinkle Tush, You know I love you dearly, Happy Valentine's Day. Love, Pooh Bear.

Craig (Baba), I love you and I always will. Happy Valentine's Day. Love, Debbie (Gertrude)

David, Your my whole world even though I do get jealous. I love you. Susie.

DeAnn, You are my one and only Valentine. I love you. Jane.

Dearest Nonna and Papa, we all love you with all our hearts. Love, Dan, Kay, Willie, Beth, John, and Danny.

Dearest Willie, Beth, John, and Danny, Happy Valentine's Day to all our babies. We love you all, Daddy and Mama.

My dearest darling Dan, Happy Anniversary sweetheart. You are my heart, my heart. Always and forever, your wife, your Kay.

Dan darling, I'll be faithful until my dying day, and I'll always love you, like I do today. Your Kay.

John S. To my little sweetheart with the big mans heart. 'Happy Valentine' Love, Tina P.

To Davey, with more love than I can express on this special day and every day. Love, Teri.

Bill, Happy Valentine's Day and Happy Anniversary. Love always, Susie.

John, I love you more today than yesterday and more tomorrow than today. Happy Valentine's Day. Love, Peggy.

Susie, even though you don't believe some of the things I say, just remember that I love you. Yours always, David.

Greg, I love you more than I could ever express. I hope we'll always be together. Happy Valentine's Day. Melissa.

Happy Valentine's Day Mom. From all your children, with all our love. Irene, Shirley, Jr. Ronald, Betty, Bob, Beverly, Linda, Guy and Cathy.

No. 33 - A Beautiful Day then even more beautiful today.

Peg and Elwin, Happy Anniversary. I love ya'll. Barb.

Lori, This day is set aside especially for those in love. I love you darling for the rest of my life! Love, Allyn.

Charlotte, Happy Birthday on this sweet Valentine Day. Love, Sonny and Jackie.

Nine teams from Mississippi, Louisiana, and Alabama converged in Kiln Saturday for the first home match of the Bay-Kiln-Waveland Boxing Club in that city at Annunciation Gymnasium.

Area boxers from the Bay-Kiln-Waveland Club and the Hancock Club participated in the match, with BKW pugilist Todd Rooks defeating Richard Morgan of Saucier in the main event of the evening.

Rooks, a native of Kiln, pummelled his opponent through the three two-minute rounds to win a decision and the main event trophy.

Rooks and Morgan are good friends out of the ring, according to the main event victor, but little of that friendship was seen Saturday night as Rooks hooked and jabbed his way to a decision.

The pair fought in the 33rd fight of the evening before some 350 boxers and spectators who watched the 4.5 hour event.

George Bennett of Gulfport defeated Bay-Kiln-Waveland's Stanley (Snakes) Christmas in their third match in the recent months.

Bennett was the aggressor throughout the match, backing Christmas into the corner where the Gulfport boxer scored heavily.

Christmas' style is often to 'rope the dope' with his opponent, but in Saturday's match the strategy did not succeed.

'Snakes fought a good fight, but he could not use the strategy he wanted to,' BKW Head Coach John Whisenhunt said.

Hancock Boxing Club's Joe Pavolini lost a decision to Ralph Tillman of Biloxi after going the distance in a three two-minute fight.

Tillman was clearly the dominant pugilist as he flung Pavolini into the ropes on numerous occasions, but the Hancock boxer stayed in the ring and offered a good match to the Biloxian.

Joe Louis Goodman, fighting unattached out of the Hancock Boxing Club, won a bout with a second round knockout.

Goodman, originally from the Hancock squad, was training with Bay-Kiln-Waveland until recently, when he returned to Hancock's training center.

In the semi-main event Jack Boyd of the BKW club defeated Donald Lusich of the Hancock squad in the second round of a scheduled three-rounder.

The fight was Boyd's debut as a pugilist, and he dominated

the ring with a torrent of combinations to the head and body of the Hancock boxer.

'He was very impressive,' Whisenhunt said.

Timmy LaFontaine of the Bay squad was defeated in the first round of a scheduled three round bout against Herman Greer of Gulfport.

Greer surprised LaFontaine by coming in strong in the opening minute of the first round and contained the area boxer to the corner throughout the fight.

The BKW corner threw the towel in the ring when they realized their boxer could not continue.

David Stringer of the Bay-Kiln-Waveland team defeated Al Hoover of Hattiesburg in a 'very impressive victory over a more experienced fighter.'

Sam Schoonmaker of the Hancock Boxing Club defeated Trent Baughn of the Ocean Springs squad in a three one-minute round boxing bout.

'Sam had some very good punches and counter-punches,' said Hancock Head Coach Harvey Mitchell.

Schoonmaker took the offensive from the offset of the bout and continued to pummel his opponent until the final bell in that match.

Noel Rawells of the Hancock squad lost a close decision against Larry Kennedy of Biloxi. The bout was Rawells' first fight.

A highlight of the match was a fight between Marrero's Herbie Bivalacqua and Saraland, Ala. boxer Mark Bounds.

Both pugilists have more than 150 fights under their belts and are Junior Olympic gold medalists.

Bivalacqua defeated Bounds in the decision after a close fight.

This week both clubs will travel to Hattiesburg for the South Mississippi Golden Gloves competition.

For the Hancock Club, Joe Pavolini, Sam Schoonmaker, and Joe Louis Goodman are expected to see action.

For the BKW squad, Coach Whisenhunt said he hopes to bring 'four or five championships home.'

The Hancock Club will host a 25 bout card at the Bay St. Louis Armory Feb. 23. The event will begin at 7:30 p.m.

Tickets for the match are on sale from any of the team's boxers.

On March 7 the BKW team will host a match at the Disabled American Veteran Hall on Main Street in Bay St. Louis.

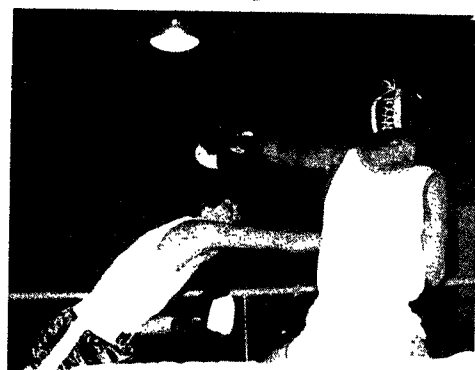

This will be the first match held at the DAV building, and renovations to accommodate 250 spectators are underway.

TWO TIRED PUGILISTS-Todd Rooks of the Bay-Klin-Waveland Boxing Club, second from left, and Richard Morgan of the Saucier Boxing Club, appear exhausted as Rooks raises

his hand in victory and prepares to accept the main event trophy Saturday night in Kiln. Rooks beat Morgan in a decision after three two-minute rounds. (Staff photo-Rich Adams)

IN THE CORNER-Timmy LaFontaine of the Bay-Klin-Waveland Club protects himself in the corner of the ring as he is taken by surprise as his opponent came on strong to win in the first round of a three-round bout. The referee stopped the bout when LaFontaine suffered damaging blows. (Staff photo-Rich Adams)

FISHIN' TIPS

from... Tom Mann

DEAR TOM: "I'm learning to fish Jellyworms, like the firetails, but get more pecks than strikes. Am I doing something wrong? I usually fish in ponds." **BOB BROWN.**

HELLO BOB: You can bet your last firetail those pesky "peckers" are bait fish, possibly bluegills. When this happens, switch to a solid color worm and you'll eliminate those little fish fascinated by the firetail of the worm.

BRER TOM: "I've been catching a lot of school bass lately, none over two/three pounds. How come they all are averaging so close in size?" **BASSIN' BUDDY.**

DEAR BUDDY: These are called "year class" bass, meaning they all hatched at the same time. These younger bass hang together as they move about while older, lunkers are loners.

HEY TOMBO: "I know you reel a crank bait fast, but can you tell me just how fast?" **PUZZLED PETE.**

HELLO PETE: It's a misconception that crank baits should be reeled fast. The only time I reel really fast is to drive a lure deep in cold water.

Normally, I reel the lure past me a few times to see at what speed it gives the best action, then I stick with that speed. If you want to drive a bait really deep, stick your rod tip under water.
